A 3-node, with two keys (and associated values) and three links, a left link to a 2-3 search tree with smaller keys, a middle link to a 2-3 search tree with keys between the node's keys and a right link to a 2-3 search tree with larger keys. A perfectly balanced 2-3 search tree (or 2-3 tree for short) is one whose null links are all the same distance from the root. Search. To determine whether a key is in a 2-3 tree, we compare it against the keys at the root: If it is equal to any of them ...

Search. A recursive algorithm to search for a key in a BST follows immediately from the recursive structure: If the tree is empty, we have a search miss; if the search key is equal to the key at the root, we have a search hit. Otherwise, we search (recursively) in the appropriate subtree.

Keys of the Origin (The Scions of Balance): Joy, Melissa A ...

"Balance is key. In everything you do. Dance all night long and practice yoga the next day. Drink wine but don't forget your green juice. Eat chocolate when your heart wants it and kale salad when your body needs it. Wear high heels on Saturday and walk barefoot on Sunday. Go shopping at the mall and then sit down and meditate in your bedroom.
