This often leaves us in a "power gap" because we must depend on people over whom we have little or no explicit control. This is a book about how to bridge that gap: how to exercise the power and influence you need to get things done through others when your responsibilities exceed your formal authority.

**7 Ways to Build Influence in the Workplace | Inc.com**

Social psychologists John French and Bertram Raven studied this phenomenon more than half a century ago. Despite its age, their research can still help us to understand why some leaders influence us, how prepared we are to accept their power, and - if you are a leader - how you can develop new power bases to get the best from your people ...

For even others, power is of no interest at all. The five bases of power were identified by John French and Bertram Raven in the early 1960's through a study they had conducted on power in leadership roles. The study showed how different types of power affected one's leadership ability and success in a leadership role.
